-- do not edit anything below this line --

Dear Alan Goforth,

Keith Brogden just logged the following message to a coordination request in which you participate:

Dear Sir/Madam,

Planning Ref: 19/00601/FUL

Name/Location: Flamingo Land, Kirby Misperton, Malton, North Yorkshire

Scope: Erection of a 34m high rollercoaster (inversion) with a track length of 875m and associated works.

Site Centre at NGR: 477784 479797

Development Radius: n/a

Hub Height: n/a ***Rotor Radius:*** n/a

*This proposal **cleared** with respect to radio link infrastructure operated by:*

Northern Powergrid (Yorkshire) Limited and Northern Gas Networks

JRC analyses proposals for wind farms on behalf of the UK Fuel & Power Industry. This is to assess their potential to interfere with radio systems operated by utility companies in support of their regulatory operational requirements.

In the case of this proposed wind energy development, JRC does not foresee any potential problems based on known interference scenarios and the data you have provided. However, if any details of the wind farm change, particularly the disposition or scale of any turbine(s), it will be necessary to re-evaluate the proposal.

In making this judgement, JRC has used its best endeavours with the available data, although we recognise that there may be effects which are as yet unknown or inadequately predicted. JRC cannot therefore be held liable if subsequently problems arise that we have not predicted.

It should be noted that this clearance pertains only to the date of its issue. As the use of the spectrum is dynamic, the use of the band is changing on an ongoing basis and consequently, developers are advised to seek re-coordination prior to considering any design changes.

Regards

Wind Farm Team
